STATE, ALLIANCE BUSINESS

unless the members read the organ of the Order. No other paper can take its place.

TOME STONES.—Those in need of any kind of tomb stones, monuments or curbing, can save money by corresponding with the Agency. State clearly what you wish, giving age of deceased, and designs will be sent you. There is a very wide range in the style and cost of tomb stones, so it is better to state about what price you desire to pay. Tae company with which we have contracted carries a large stock and has, perhaps, the leading marble yard in the State. Any inquiry will be promptly answered and any order coming through the Agency will be discounted to purchaser, besides the shipment will be delivered freight paid wany railroad station in North Caro-

Now if you need anything in this line, let us hear from you.

SHIPPING WOOL -We have sent out a great many samples, price lists and juipping directions for wool. As yet have notice of very few shipments. Unless you ship by our directions, the State Alliance loses your support. The working of wool is one item for which we have never been able to contract advantageously for the producer. The mills give the Agency a small commission, scarcely enough to pay expenses. but no discount to producer. This is the best we have been able to do. If you ship by our directions you help the Agency. The Agency offers you in return as much work and as good goods as you would get anywhere, and it proposes to protect you in the transaction. Good, or no good? Help, or no help? Which will you have? Which will you do! Is the Alliance of any good in North Carolina? Has it cheapened the price of goods? Has it taught you how to trade? Has it educated the people? Has it opened your eyes? Has it been of any benefit? If so, does it not de-

mand your hearty support?

Does the Agency help you? Do you help the Agency? It cannot live without support. The Alliance cannot live without the Agency. The duty is clear. If you wish to continue the battle against monopolies, trusts and combines, if you wish to educate against mortgages and their attending slavery, tyou wish to cultivate independence of thought and action, if you wish to improve the moral, social and financial condition of the laboring class of people, then RALLY TO THE ALLIANCE,

What were conditions up to ten years ago? Scarcely one man in ten of the great class of laboring people had any latelligence as to the vital questions of the day. To day no class is better informed. What has brought about this change of condition? The Alliance. If you don't appreciate it, let the Alliance go. If you do, lift high her colors, fally to the cause. Keep up the wave of intelligence. Let no one exceed you la loyalty, in devotion. Return not again to former conditions.

Be not dumb driven cattle, Be a hero in the strife.'

There is no doubt about it. Firtilizer is the most important single item that the Agency has to consider. It is the most important subject for the farmer. It has been said that the manure pile is the farmer's bank. It is literally true. No farmer can succeed without saved on the farm, if care is taken. Any farmer makes manure, but few California B save it to best advantage, Examine Keystone XL.... Your own premises now, and see if you are saving as you can. What are you doing with the ashes? In every 100 pounds there are nearly 10 pounds of potash and five pounds of phosphoric Sugar drips, pure sugar Norfolk, acid. A pound of unleached oak wood Good ashes contains mortilizing constituents Sugar syrup, than a pound of kainit, and yet many bushels are thrown away every year, Vanilla drips, or allowed to waste. Hen manure is White clover drips almost entirely wasted by being carelessly thrown to the weather. Stable manure is allowed to fire fang or to dry
out from exposure. There are many
sources of manure and causes of waste.
